- Providing clear expectations of behaviour and treatment of others.**
- Implementing a social skills and behaviour management program.**
- Continuing to develop a culture where individual differences are accepted and opportunities are provided for all to reach their full potential.**
- To establish and maintain an environment where all individuals are safe.**
- To foster a learning environment that is conducive to learning.**

- **To foster students' ability to self monitor their behaviour and provide supports to allow all students to achieve success in this area.**
- **To provide a whole school approach to Behaviour Management Practices. At St. Joseph's School this will be enabled through the (Positive Behaviour Intervention & Support Framework) (PBIS).**
- **Organisation**

School-wide Positive Behaviour Intervention and Support (PBIS) is a prevention model. It is based on the premise that all students can benefit from well implemented, evidence-based practices to support positive behaviour. St. Joseph's Primary School has used this comprehensive framework to design behavioural support systems for all students. This has allowed informed decision-making, based on data collection that guides the process of assessing student needs and providing additional levels of behavioural support to students in need.

Positive universal expectations for behavior have been established for all students in all locations of the school.

At St. Joseph's Primary School these expectations are:

- Have a positive attitude
- Be aware of others and their needs
- Be positive in your attitude with all community members.

Interventions and support strategies are implemented to teach and reinforce these expectations.
